

STATE OF NEVADA
GOVERNOR'S FINANCE OFFICE
Office of Federal Assistance

209 E. Musser Street, Suite 100 | Carson City, NV 89701
Phone: (775) 684-0156 | www.ofa.nv.gov | Fax: (775) 684-0260

The information below reflects the Intergovernmental Review Submissions to the Governor's Office of Federal Assistance, the Single Point of Contact per Executive Order 12373 during the week of July 14, 2025, through July 18, 2025.

SAI#2025-662	NNPH, Air Quality Management Division
Description:	EPA Section 105 grants are awarded to state, local, and tribal air pollution control agencies. The money helps run programs that prevent and control air pollution or implement national air quality standards.
Cost:	\$2,286,514
Funding Agency:	U.S. Environmental Protection Agency
Funding Opportunity Link:	Funding Opportunity Link Click here
Grant Type:	Mandatory (Formula)
Region Impacted:	Local Only
Contact Person:	Craig Petersen
Type of Organization:	Special District Government

SAI#2025-663	BOR, NSHE, on behalf of the University of Nevada, Reno
Description:	The program aims to strengthen the national native seed supply chain by partnering with private industry, federal, state, tribal, and other stakeholders. The BLM uses native seeds to restore and maintain public lands for various uses such as grazing, timber, wildlife habitat, recreation, and land reclamation. Enhancing seed availability will reduce costs and risks, create American jobs, and improve project outcomes—such as better vegetation, fewer invasive weeds, and healthier grazing lands. In 2025, the program supports the National Seed Strategy and aligns with federal priorities like wildfire recovery, rural economic development, and state stewardship partnerships.
Cost:	\$635,884
Funding Agency:	Bureau of Land Management (BLM)
Funding Opportunity Link:	Funding Opportunity Link Click here

Grant Type:	Discretionary (Competitive)
Region Impacted:	Statewide
Contact Person:	Heidi Eskew
Type of Organization:	Public/State Controlled Institution of Higher Education

SAI#2025-664	Bureau of Land Management
Description:	The program aims to strengthen the national native seed supply chain through partnerships with various sectors to support restoration and sustainable use of public lands. By improving seed availability and market stability, the initiative helps lower costs, reduce risks for producers, and create jobs. This also boosts success in land reclamation and restoration efforts. In 2025, the program supports the National Seed Strategy, aligning with federal priorities such as wildfire recovery, rural economic development, and state-led land stewardship.
Cost:	\$2,862,103
Funding Agency:	Bureau of Land Management (BLM)
Funding Opportunity Link:	Funding Opportunity Link Click here
Grant Type:	Discretionary (Competitive)
Region Impacted:	Statewide
Contact Person:	Joel Ponte
Type of Organization:	Public/State Controlled Institution of Higher Education

SAI#2025-665	BOR, NSHE, on behalf of the University of Nevada, Reno
Description:	A primary purpose of the program is to increase the national native seed supply chain by working with private industry, federal, state, tribal and other partners. BLM uses the native seed supply to maintain and restore multiple use and sustained yield on public lands including livestock grazing, timber production, wildlife habitat, recreational use, and orphaned well and abandoned mine land reclamation. Improving native seed availability and stability in the market will lead to lower seed costs, lower risk incurred by producers, and more American jobs related to the native seed production pipeline. Improving the native seed pipeline will also result in increasing project success, with reclamation projects meeting standards with long-term vegetative establishment and reduced noxious weed occurrence and grazing lands meeting land health standards, ultimately improving the health and benefits public lands provide for multiple use and sustainable yield.
Cost:	\$332,146
Funding Agency:	Bureau of Land Management (BLM)
Funding Opportunity Link:	Funding Opportunity Link Click here
Grant Type:	Discretionary (Competitive)
Region Impacted:	Statewide

SAI#2025-667	Nevada Division of Natural Heritage
Description:	The T&E Program focuses on implementing the Department of Interior's priorities by emphasizing actions that help streamline permitting processes and reduce regulatory requirements for authorizations (e.g., minerals, energy, timber, recreation). Overall, this can be achieved by 1) conserving and recovering species and their habitats to help recover and delist or help preclude the need to list new endangered and threatened species thereby reducing future regulations and 2) improving available information and data that can be used to support approval of authorizations. To meet these goals, the T&E Program has an opportunity to work with partner organizations to increase program efficiencies and effectiveness.
Cost:	\$848,882
