SAI#2025-671	UNLV
Description:	The BLM Wildlife Program manages wildlife resources on public lands to support the social and economic well-being of Americans. Its priorities include habitat protection and enhancement, species reintroduction, field studies, law enforcement, education, and monitoring. The program partners with other organizations to conserve wildlife habitats, monitor populations, reduce threats, and evaluate management effectiveness. It also promotes public education and awareness to support conservation and responsible wildlife stewardship on BLM-managed lands.

SAI#2025-676	BOR, NSHE, on behalf of the University of Nevada, Reno
Description:	The Rangeland Management program conducts inventories, assessments and evaluations of soil and vegetation conditions and land health. Monitoring data is collected and analyzed to ensure progress toward meeting land health standards. Funded projects under this program will focus on high priority work effecting the program nationally by crossing state boundaries, such as, activities that support maintaining or achieving land health and productivity, increasing soil carbon sequestration, and creating resilient landscapes to benefit current and future generations. These activities could include, but are not limited to, such things as: Facilitating the restoration of rangelands. Soils mapping and development of ecological site descriptions. Engagement of community members and other stakeholders, through mentoring, training, and educational programs.
Cost:	\$89,282
