Grant Type:	Discretionary (Competitive)
Region Impacted:	Southern Region
Contact Person:	Tiana Wright
Type of Organization:	Special District Government

SAI#2024-468	State of Nevada Division of Healthcare and Financing Policy
Description:	Section 206 of the Consolidated Appropriations Act, 2024: State Planning Grants to Promote Continuity of Care for Medicaid and CHIP Beneficiaries Following Incarceration.
Cost:	\$5,000,000
Funding Agency:	CMS
Funding Opportunity Link:	Funding Opportunity Link Click here
Grant Type:	Discretionary (Competitive)
Region Impacted:	Statewide
Contact Person:	Jessica Vanderlinden
Type of Organization:	State Government

SAI#2024-469	Central Nevada Health District
Description:	The Environmental Health Specialists Network (EHS-Net) supports programs in public health departments to: (1) As a funded member of EHS-Net, collaborate with other EHS-Net recipients and partners to develop and conduct multisite research projects focused on improving retail food safety; (2) Develop and conduct individual research projects focused on improving retail food safety. These projects will be unique to each recipient's needs; and (3) Include an environmental health component in foodborne outbreak investigations and report data from outbreak investigations to CDC's National Environmental Assessment Reporting System (NEARS). You must be able to collaborate with epidemiology and laboratory staff in your health departments or in other agencies that conduct foodborne outbreak investigations. Environmental health programs are typically responsible for retail food safety in their jurisdictions; foodborne outbreaks commonly occur in retail food establishments such as restaurants, delis, and caterers. Thus, the focus of these research and investigation efforts is retail food safety. We will award recipients for the first 12 months. We expect to award four more separate 12-month budget periods after that. Those separate budget period awards depend on whether funds are available and whether the recipient's progress is satisfactory. Key activities include: 1) Practice-based research with a focus on retail food establishments; 2) Foodborne outbreak investigation; and 3) Collaboration with other EHS-Net recipients. Topics of interest include: a) Food safety management systems; b) Foodborne illness risk factors and practices that contribute to outbreaks, such as sick workers, inadequate temperature control of food, and cleaning and sanitizing; c) Interventions to reduce foodborne illness risk factors; d) Norovirus prevention and investigation; e) Cottage food and food freedom regulations; and f) Restaurant inspection and outbreak investigation practices.
Cost:	\$200,000
Funding Agency:	HHS-CDC-HHSCDCERA

Grant Type:	Discretionary (Competitive)
Region Impacted:	Rural Region
Contact Person:	Olivia Diaz
Type of Organization:	County Government

SAI#2024-470	Nevada Clean Energy Fund
Description:	The Environmental and Climate Justice Community Change Grant program (Community Change Grants) offers an opportunity to transform disadvantaged communities across the United States into healthy, climate resilient, and thriving communities for their current and future residents. The Community Change Grants will fund community-driven projects that address climate challenges and reduce pollution while strengthening communities through thoughtful implementation. The historic levels of support provided by these grants will enable communities and their partners to overcome longstanding environmental challenges and implement meaningful solutions to meet community needs now and for generations to come.
Cost:	\$19,987,957
Funding Agency:	U.S. Environmental Protection Agency
Funding Opportunity Link:	Funding Opportunity Link Click here
Grant Type:	Discretionary (Competitive)
Region Impacted:	Northern Region; Rural Region
Contact Person:	Kirsten Stasio
Type of Organization:	Nonprofit
