The information below reflects the Intergovernmental Review Submissions to the Governor's Office of Federal Assistance, the Single Point of Contact per Executive Order 12373 during the week of September 16 ,2024 through September 20, 2024.

SAI#2024-441	Clark County Information Technology
Description:	The Competitive Grant Program will make funds available to a wide range of entities to address barriers to digital equity faced by Covered Populations as defined by 47 U.S.C. §1721(8). The Competitive Grant Program will support efforts to achieve digital equity, promote digital inclusion activities, and spur greater adoption and meaningful use of broadband among the Covered Populations. Specifically, the Digital Equity Act authorizes funds to be used for the development and implementation of digital inclusion activities that benefit the Covered Populations; programs that facilitate the adoption of broadband by Covered Populations to provide educational and employment opportunities; training programs that cover basic, advanced, and applied skills; workforce development programs; access to equipment, instrumentation, networking capability, hardware and software, or digital network technology for broadband services at low or no cost; and the construction or operation of public access computing centers for Covered Populations. Awards will focus on addressing the needs of the Covered Populations not met by the Digital Equity Capacity Grant Program and will strive for a diverse pool of recipients.
Cost:	\$15,543,098
Funding Agency:	US Department of Commerce (DOC)

SAI#2024-442	Board of Regents, NSHE, obo University of Nevada, Reno
Description:	The U.S. Department of Agriculture (USDA), Animal and Plant Health Inspection Service (APHIS), Veterinary Services (VS) is announcing the availability of up to \$16,500,000 in funds in the National Animal Disease Preparedness and Response Program (NADPRP) to support projects in the core topics listed below. 1. Develop, enhance, and exercise State and Tribal animal disease outbreak emergency response plans. 2. Support livestock and poultry biosecurity measures and programs. 3. Enhance capability and capacity for depopulation, carcass disposal, and decontamination in a disease outbreak. 4. Support animal movement decisions in a disease outbreak. 5. Enhance animal disease traceability during a disease outbreak. 6. Develop and deliver training & exercises to improve animal disease outbreak response capabilities. 7. Support outreach & education on animal disease prevention, preparedness, and response. APHIS will also support projects that address these FY 2025 target issues: a. Multi-state and/or multi-partner exercises aimed at improving animal disease response plans. b. Biosecurity projects that: 1. Improve biosecurity when transporting animals. 2. Improve biosecurity by evaluating the relative importance of different pathogen routes of entry onto livestock premises and the effectiveness of measures to mitigate those risks. 3. Improve biosecurity practices at animal commingling locations and points of concentration such as livestock markets, slaughter plants, and with the packing industry. 4. Improve biosecurity among niche producers by educating them about diseases of concern and mitigation strategies for small-scale farms. c. Training and/or outreach to support the mental health and wellbeing of animal disease outbreak emergency responders as well as their physical health and safety; may include outreach campaigns to promote the training. d. Training and/or outreach to accredited, non-regulatory veterinarians, and/or diagnostic testing laboratories to improve suspected emerging and foreign animal disease reporting; may include outreach campaigns to promote the training and improve disease reporting. e. Projects to advance the development of sheep and goat vaccines. f. Projects that will enhance aquatic animal disease preparedness and response. g. Projects that will enhance equine disease outbreak prevention & response.
